

## NEED OF ECONOMY AT WASHINGTON

### THE APPROPRIATIONS NOW THOUGHT OF.

**Great Pressure on Congress for Money**  
—Irresistible Demand For Public Buildings, Coast Defenses, Fortifications and New Warships, All Held to Be Necessary.

Washington, Dec. 1.—Beginning tomorrow the house committee on appropriations will hold daily informal sessions to map out the work of the short session. Chairman Cannon of Illinois has arrived, and so has Mr. Sayers of Texas, his right bower. These two men are the best equipped in congress on money bills. They are thoroughly informed as to the details of governmental machinery and while mercenary in pruning appropriation bills by checking extravagances they are broad-minded and can therefore guide expenditures with a patriotic conception of the growth of the country and its present and prospective requirements. Pressure on congress will be greater than usual at this session. It will take desperate fighting to keep appropriations within \$600,000,000 this winter, and it is for the purpose of organizing for the battle for the protection of the federal treasury that the appropriations committee is getting together thus early—a week before the assembling of congress. No new money will be wanted for rivers and harbors, but there will be an irresistible demand for largely increased appropriations for buildings, and for coast defenses and fortifications. More war ships may be provided for, and tremendous pressure will be exerted to rush private bills through.

### WILLIAM STEINWAY DEAD.

**Noted Piano Manufacturer Succumbs to Typhoid Fever.**

New York, Dec. 1.—William Steinway, the piano manufacturer, died Monday at his residence in this city. Death was due to typhoid fever.

Mr. Steinway, who had not been in good health for a year, was taken ill with typhoid fever about four weeks ago. He was thought to be progressing toward recovery until Sunday morning, when he suffered a relapse. His physician was summoned and remained with him until the end came, a little after 3 o'clock in the morning.

### Two Boys Become Bandits.

Silver Creek, Neb., Dec. 1.—At 7 o'clock Sunday night two brothers, aged 15 and 17 years, named Schoenfeldt, living two miles north of Silver Creek, shot Owen Hutchings, a farmer, living near here, while milking in his barn. They then assaulted Mrs. Hutchings with a revolver. She got away from them and hid in the attic. The boys ransacked the house, finding about \$20. The outlaws have both been captured and claim that Hutchings owed them some money, giving this as a reason for committing the crime. Hutchings is still alive, with small hope of recovery.

### Greece in Need of Wheat.

Washington, Dec. 1.—United States Consul Horton at Athens in a report to the state department says that in consequence of the bad wheat harvest in Russia, which supplies nearly two-thirds of the wheat used in Greece, prices of wheat are very high there and are still rising. He is confident there is a fine opening for the introduction of American hard wheats into Greece.

### Window Glass Trust Still Alive.

Indianapolis, Ind., Dec. 1.—The window glass manufacturers of the United States held an all-day meeting at the Denison house Monday. It was the most largely attended that has ever been held, nearly every factory in the country being represented. The stories that the trust had gone to pieces were laughed at. The members claim it is stronger than ever.

## OPPOSE THE EMPEROR.

**Navy Debate in the German Reichstag Is Exciting.**

Berlin, Dec. 1.—The debate on the budget was begun in the reichstag Monday. Count von Pasodocky, the secretary of the treasury, dwelt upon the favorable financial situation and stated that the surplus for 1896-7 would probably be 24,754,000 marks, from which would have to be deducted 9,000,000 marks to cover the supplementary estimates. The current year, he added, was the first since 1875 in which there had been no increase in the public debt.

Herr Fritzen, centrist, declared that the increase in the naval expenditures was exorbitant and insisted that reductions were absolutely necessary. Continuing Herr Fritzen said: "We will not allow our very life blood to be drawn, nor will we be allured by the phantom of a world-embracing policy which once before drove the German empire to its doom."

### SUFFERING FOR FUEL.

**Many Snow-Bound Villages in the Northwest Cannot Be Reached.**

Fargo, N. D., Dec. 1.—Fuller reports of the late storm show it to have been far more serious than was at first anticipated. Drifts in the cuts on the railroads are from eight to fourteen feet deep, and frozen like ice, mixed with snow. Dynamite is used to loosen the snow. The southwestern branch to Lisbon and Edgely is still frozen up, and people in the towns along the line are out of wood and coal, and there seems to be no prospect of opening the road for three or four days. Small towns along the main line are also out of fuel.

### Boy Perishes in a Blizzard.

Ada, Minn., Dec. 1.—Elmer Holte, aged 14, was frozen to death in the terrible blizzard of last week. On Thanksgiving he and his father started with a team for the Poplar woods, fifteen miles distant, to get a load of wood. On returning they lost their bearings in the blinding snow and started afoot to look for shelter. They became separated, the elder Holte succeeding in finding a farmhouse after wandering about all night. Searching parties started out early next morning to look for the boy, but it was not till Saturday that he was found, frozen stiff. The father also was badly frozen.

### Charges Abuses in Prison.

Terre Haute, Ind., Dec. 1.—Henry R. Patton, who was sent to the Michigan City prison for passing counterfeit money, makes allegations of favoritism in the prison. Prisoners with money at their command, he says, are shown unwarranted favor, while friendless convicts are put at hard labor. He cites the case of Frank Coffin, convicted of wrecking the Indianapolis National bank, alleging that Coffin spends the day in the warden's office, smoking cigars, eats at the hospital table, and sees the prison proper only at nights, when he is confined in his cell.

### New Baseball League Planned.

Ligonier, Ind., Dec. 1.—J. L. Walker, a promoter of baseball leagues, is at work attempting to organize an interstate league with a membership of eight clubs. ## GET CASH AND ARMS

### BY THE CAPTURE

### CUBAN INSURGENTS WIN A GREAT VICTORY.

**Bold Raid of Gen. Garcia Results in The Finding of Arms Sufficient to Fit Out Four Hundred Men, and \$5000 in Gold—Cannon Also Cornered.**

Havana, Dec. 1.—Details of the movements of Gen. Weyler reached here Monday. At 2 o'clock during the afternoon Thursday he left Artemisa, following the advance guard of his columns, which were flanked by squadrons from the principal regiment. The Spanish forces followed the highway, and little else but ruins, ashes, dynamited culverts and desolation were seen, in place of the once picturesque landscape. Twice the columns were compelled to halt on account of the partly destroyed roadway, and it was not until 7 o'clock the same evening that the troops arrived at the river Bayata, three miles from Camelinia, where camp was pitched. The troops entered San Cristobal at 9 o'clock the next morning. There they found all the houses decorated, and were welcomed with enthusiasm by a crowd of people.

### GEN. GARCIA'S SUCCESS.

**Details of the Capture of the City of Guaymaro.**

New York, Dec. 1.—President Palma of the Cuban junta has received a letter from the camp of Gen. Calixto Garcia, giving details of the capture of Guaymaro by the insurgents. The letter says that not only did Garcia's army capture the town, but enough arms and ammunition to fit out 400 recruits, and the Spanish commander's military chest with \$5,000 in gold.

Gen. Garcia's forces numbered nearly 5,000 men. He made a desperate attack on the fort, using the two cannon which the insurgents had with good effect. He drove the Spanish troops from their position, and occupied the town, which was burned. In the battle 180 Spaniards were taken prisoners.

The arms and ammunition captured were 125,000 cartridges, 200 Manner rifles, 160 Remington rifles and two field pieces.

### BRYAN'S VIEW OF 1900.

**Writes With Much Confidence of the Next Campaign.**

New York, Dec. 1.—In the December number of the North American Review Mr. W. J. Bryan has an article, in which he discusses the result of the election as affecting the status of the silver question. The issue on which the election turned he describes as the "greatest ever submitted to the American people in time of peace." The declaration of the Chicago convention in favor of the free coinage of silver forced upon the people of this country a study of the money question in general; and within the last four months more people have been simultaneously engaged in its consideration than ever before in the history of the world. The result of this study, Mr. Bryan declares, to be "temporary defeat, but permanent gain for the cause of bimetalism." He is confident of success in 1900.

### OLNEY ASKED TO ACT.

**Another American Citizen Is in Danger in Cuba.**

Key West, Fla., Dec. 1.—Letters received in this city from Cuba state that young Oscar Cespedes, an American citizen and correspondent of the Key West Herald, who has been confined in prison in Matanzas for several months, will be tried by court-martial. Although an American citizen, his friends here fear that he will be condemned to death by the Spaniards and executed. The case is similar to that of Ona Melton, correspondent of the Jacksonville Times-Union, who has been confined in the Cabanas for the last nine months. Both cases have been reported to Secretary Olney, with the request that he intervene in behalf of American citizens, but so far the state department seems to have done nothing.

### MUST PAY THE SCALE.

**Manufacturers Will Have to Settle or Glass Workers Will Be Called Out.**

Anderson, Ind., Dec. 1.—The ultimatum was issued Monday by President Burns of the Window Glass Workers' association. Eight manufacturers withdrew voluntarily from the trust a month ago, signed the workers' scales, which provided for an increase of 10 per cent over last year's scale, and started their plants. The manufacturers' committee, representing all the other firms in the country, held out for a cut, and finally signed last year's scale. These manufacturers made out their pay rolls at the scale signed by the committee. The men refused to accept it. President Burns was called, and his ultimatum is that these manufacturers must pay the 10 per cent for the month or he will call off the men. No reply has yet been made.

### Reading Railroad Reorganized.

No one seems to know when the securities of the new company will be ready for issue. They include \$114,000,000 general mortgage 100-year 4 per cent gold bonds, \$28,000,000 non-cumulative 4 per cent preferred stock, \$42,000,000 non-cumulative 4 per cent second preferred stock, and \$70,000,000 common stock.

Miss Croel was dangerously injured, the horse was killed and the vehicle wrecked.

## BANK DOORS CLOSED.

**Missouri National, at Kansas City, Falls—Was a Strong Institution.**

Kansas City, Mo., Dec. 1.—The Missouri National Bank closed its doors Monday morning. It was classed as one of the strongest institutions in the southwest. The immediate cause was the withdrawal of \$50,000 in one lump by Heim, the wealthy local brewer, whose action was quickly followed by others.

The last statement issued by the bank showed deposits of \$1,561,000, and cash and exchanges amounting to \$546,000. In the panic of July, 1893, the Missouri National was one of other local institutions to go under, but it soon reopened.

The bank had been open for just one hour when the comptroller took charge of its affairs. The closing came as a surprise to the officers. The same surprise was evidenced everywhere, other banks believing the Missouri National to have regained its prestige and to be in a flourishing condition. No fear were expressed by other leading bankers that the failure would spread.

The bank had between 2,200 and 2,300 depositors, most of them for small amounts, and there are probably 120 stockholders of the concern.

### Looked in Vain for Bandits.

Warsaw, Ill., Dec. 1.—On information deemed trustworthy the detectives of the Wells-Fargo express company and Santa Fe railroad agents, with the sheriff of Hancock county and deputies, in all eleven men, armed heavily, prepared Friday night for a hold-up of the Santa Fe Chicago night express at the east end of the Fort Madison bridge. In this car the officers awaited the train robbers. But they never came.

Gere, prohibition, 14,582; Isaac W. Higgs, national prohibition, 723; Charles A. Bastian, social labor, 985. The official footing for McKinley is 607,130 and for Bryan 464,523.

### Burlington Employees Sad.

Galesburg, Ill., Dec. 1.—A notice was posted in the Chicago, Burlington & Quincy shops here Monday night reducing the hours of the large force of workmen to thirty-two a week. Skilled machinists, who four years ago were making \$16 to \$20 a week, are now making but \$8 a week, and others in like proportion. The train department also has suffered, a number of crews having been laid off. A further reduction will soon be made.

### Paper Trade Men Meet.

## TOWNS IN DANGER FROM THE FLOODS

### Situation in Northern Wisconsin Is More Serious Than Ever.

### ICE GORGE GROWS AND MAY BREAK ANY TIME.

**Durand People Wade Through Icy Water in Their Night Clothes—Three Hundred Head of Cattle Perish—Railroad Trains are Abandoned On The Chippewa and Wisconsin Valley Lines, as The Tracks Are Under Water—The Danger Increases Hourly.**

Chippewa Falls, Wis., Dec. 1.—[Special].—The situation at this city is more serious this afternoon than it has yet been. No one knows what moment the dam may break, and no one can estimate the damage and loss of life that would follow its breaking.

The gorge still continues to grow in size. All roads are flooded, and all trains have been abandoned on the Chippewa and Wisconsin Valley lines.

Wausau, Wis., Dec. 1.—[Special].—Durand people had to flee for their lives through icy water, and many of them were severely frozen. Seventy-five people made their escape in this manner, clad only in their night clothes. Three hundred head of cattle have been frozen to death.

Chicago, Dec. 1.—Specials to the evening papers from various points in the river section of Wisconsin, preface great damage to many towns, and say the streets in several places are now raging rivers. Residents have been forced to flee for safety.

Chippewa Falls, Wis., Dec. 1.—Nothing but a dam of ice and frozen logs stands between this city and a raging flood that would sweep the buildings from many of the streets in this city. An ice gorge has formed in the river, and back of this for a distance of six miles is a lake which is steadily and rapidly increasing in size. At the same time the immense pressure on the ice dam is growing greater every minute. The ice gorge has formed at the old Lafayette mill, and for six miles back water is pouring into the great basin. Above the milling company's dam the water is running at a slope of ten feet, and in spite of the immense spread of the basin which has been formed, the water is rising at the rate of one foot every two hours.

The water has been rising steadily, and tonight Spring and River streets are flooded as far as Bridge street. At the rate the water is rising now a height will be reached that means the flooding of half of the city. At Irvine, near here, the tracks are flooded, and no trains came in Monday. The weather is intensely cold, and the streets are a mass of ice, over which flows the incoming tide as it slowly rises.

In 1894 a similar flood occurred, causing a loss of many thousands of dollars. A great deal of railway property is threatened and many highway, and railway bridges will probably be swept away. Below the immense gorge the river is practically dry, and when the jam breaks the body of water in the reservoir must carry destruction to the valley below. Eau Claire has every reason to feel apprehensive, as its danger begins when that of Chippewa Falls has passed.

### Eau Claire in Danger.

**Intense Suffering Among Women and Children—Some May Have Perished.**

Eau Claire, Wis., Dec. 1.—The Chippewa river is jammed with ice in several places from the Dells sorting works just above Eau Claire to Gravel Island, two miles from Chippewa Falls. The back water at Chippewa is accumulating rapidly, flooding part of the town and is up to eighteen feet. Alarming reports are received as to the possibility of the ice jam breaking and precipitating a great mass of water on Eau Claire. About twenty miles of the Valley division of the Chicago, Milwaukee & St. Paul south of Eau Claire is under water and ice, and there have been no trains for three days.

On the lowlands below Durand the rise was so rapid that many families had to flee in their night robes to places of safety and leave their all behind them. The suffering among the women and children was intense, and many are reported as having frozen feet and limbs. An engine and coach sent out from Durand gathered up about forty or fifty of these unfortunate people, but so fast was the water rising that the train had to go back to Durand. It is thought that some of the people were not rescued by the rescuing party, and possibly may have perished. The bottoms are all under water and the stock and produce are a complete loss. Dead domestic animals could be seen all about the neighborhood, frozen stiff in the ice. In most of the homes were stored the winter supplies, and these were all lost.

North Johnstown, Dec. 1.—There were many disappointed people Thanksgiving day. Those who had prepared chicken pie and roast turkey for invited guests, and were obliged to dine alone. The roads were almost impassable with mud, and the day was gloomy and showery until just before sunset, when the sun burst forth in all its splendor, and almost instantly a magnificent rainbow appeared which was declared by many to be the most beautiful one they ever saw. ## WONDERFUL MACHINE IS THE VITASCOPE

EDISON'S INVENTION SHOWN  
AT BELOIT.

Manager Stoddard, of The Opera House, Tells of What He Saw—Royal Neighbors Entertain Last Night—The Caledonians Celebrate St. Andrews' Day.

Manager Stoddard, of the Myers' Grand, took a trip to Beloit to see a performance of Edison's Vitascope, and also Mons. Guibal and Mile. Ortiz, last night. The performance was really wonderful, and is a great exhibition of psychological hypnotic science, and only a few of the scenes may be mentioned. Mons. Guibal takes his daughter, Miss Ortiz, and places her in a deep sleep. Then he proceeds through the audience, and has a great many questions put to him. She then repairs through the audience, and without one word or sign from her father, proceeds to carry out your slightest thought, such as untying a lady's box, kissing a child, picking out a certain coin for Mr. Stoddard, who merely thought of the coin. She then proceeded to write messages for different people, and many other things, too numerous to mention. This performance, Mr. Stoddard says, far surpassed anything he had ever witnessed. This was followed by Edison's greatest electrical and mechanical invention the vitascope which has just come from New York and Chicago as well as playing for ten weeks to tremendous houses in Milwaukee. The theatre was filled with many of the leading citizens of Beloit.

MARKED ST. ANDREWS' DAY.

Caledonian Society Open Concordia Hall by a Literary and Musical Entertainment.

Rock county Scotchmen marked St. Andrews' day by song, story and dancing last evening. With each month the attendance at Caledonian socials has increased, and this time it was necessary to adjourn to Concordia hall. President Alex. Galbraith was in the chair, and after a piano solo by George Dower, he reviewed St. Andrews' life and works, declaring him to have been "unusually free from blame or reproach, even for a saint." There was a vocal solo by Mrs. Charles H. Hansen with piano accompaniment by Miss Hattie Ferrin; a short paper by J. C. Wilmarth; an original poem, "Motherhood," by Mrs. John Galletly; a recitation by Master George M. Caldwell, "The Man in the Moon;" a recitation, "How He Saved St. Michaels," by Miss Elsie Fathers, and an appreciative reading of "John's Christmas," by Mrs. O. H. Brand. There were also two numbers by the Caledonian male quartette—E. O. Smith, William Garbutt, and George and Harry Robinson—both of which won encores.

At 10 o'clock the floor was cleared for dancing, and there was jollity until 1 o'clock.

Severe Case of Dyspepsia

"I suffered from dyspepsia 20 years. I had a feeling as though there was a lump in my stomach. I did not dare to eat meat or warm bread, very few vegetables, for fear of the great distress food caused me. I experienced relief right after commencing to take Hood's Sarsaparilla. My appetite increased, I gained in general health and strength. I can eat almost anything now without discomfort. Although I had been an invalid for twenty years, I can truthfully say that I am better than for a long time. I never weighed so much in my life." MRS. EMILY F. Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla.

Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. If his body is all out of order and run-down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he "is not sick, but doesn't feel just right" he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. If this condition doesn't exist, something ought to be done. That means nine cases in ten the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the body. It makes the appetite good, digestion and nutrition perfect, and supplies rich, red blood to all the tissues, building up solid, healthful flesh.

## SAILOR WAS CAST AWAY ON LAND

Man of the Capstan Bars and Ratlines Was Seeking Dry Dock

"Heigho, me lude, the winds blow free—" So sang the sailor man. He was true to his calling—three sheets in the wind; far from being on an even keel; and having much trouble with his steering gear. He rolled up to number 2 fire station, and dropped anchor.

"Ahoy mates" he sung out when Drivers Gallagher and Barriage and Pipeman Abbott approached. "If you have no objection, I'll belay here and heave to. I just left ship at Duluth. Then I shipped for Milwaukee by train, and rode here on the quarter deck. I am bound for Mrs. Johnson's boarding house, where I lay up for the winter. She lives on Clinton street. Where is it?"

If there is any one thing that the firemen pride themselves on, it is their knowledge of the streets of the city. They know the name of every highway and alley, but "Clinton street" was a new one. So they consulted the city map, and found that Clinton street crossed the "gas pond" from North Main street across "Goose Island."

"Nobody lives on Clinton street," said Driver Gallagher.

"Vast heaving" replied the sailor. "Mrs. Johnson and lots of people live on Clinton street."

"It's two-thirds under water," replied the fireman, "and only the ducks and geese travel on it."

"Well, I guess I laid up there all last winter," declared the sailor "and was in the dry dock at Mrs. Johnson's all one season while a land lubber doctor caulked my jammed knee."

"Perhaps your deck load was a little large" suggested the fireman, "and the bilge water had got in its work."

"Well, aint this Milwaukee?" the sailor asked as a light seemed to strike him.

"No, you are talking to General Gallagher, chief of the fire department; Colonel Abbott, chief of police, and Major Barriage, chief of detectives of the great and good city of Janesville," replied the men of the hose.

"Janesville," mused the sailor. "How did I get here? I shipped from Duluth to Milwaukee. Where is the port office? I want to clear for that port."

He was directed to the depot and faded from sight up North Main street. "He was so wat r lagged that he couldn't tell eight tells from a cow bell or a bow split from a belaying pin" said "General" Gallagher. "I never saw a hulk pitch so and his rudder wouldn't keep him before the wind. He should have jettisoned his cargo and heaved his deck load overboard. Then maybe he could have weathered the port, wore ship and made the Milwaukee harbor. As it is now he couldn't weigh anchor with a pair of platform scales."

Just then the bell struck for noon.

## FORTY YEARS OF SUFFERING FROM PILES.

Remarkable Cure of Popular Major Dean of Columbus, Ohio.

People who suffer from that annoying and obstinate disease will be gratified to learn that science has discovered a safe, convenient and simple cure for every form of piles, as the experience of the popular Major Dean of Columbus, Ohio, amply attests. The Major says: "I would like to add my name to the thousands who have been cured by the Pyramid Pile Cure. I know from experience that it is the only remedy on earth that will effectually cure piles; plenty of remedies give relief for a time, but as for a lasting cure I had tried all the salves, lotions, etc., without success. Six boxes of the Pyramid Pile Cure entirely removed all traces of a case of piles of forty years standing. You may rest assured that the Pyramid Pile Cure has no stauncher advocate than myself. I feel that it is my duty to allow you to use my name in any way you may see fit, in order that other sufferers may thus be directed to what I feel certain will be a speedy relief and cure. The Pyramid Pile Cure gives instant relief and a permanent cure in all kinds of blind, bleeding, itching piles. It is absolutely free from opiates, cocaine and similar poisons, so common in pile cures. The Pyramid Pile Cure is sold by druggists at 50 cents and \$1. A book on cause and cure of Piles will be sent free by addressing the Pyramid Co., Albion, Mich.

## TWO KINDS OF STOCK.

Doubtless none of the people who object to Henry C. Payne because he owns street railway stock would consent to holding any stock themselves. But if they should—if provided so arranged it that stock was forced into their hands—would they allow the accident to disfranchise them? Or would they mendaciously declare street railway stock to be no more contaminating of itself than creamery stock or churn factory shares?

This question ought to be settled before the guerilla warfare on the republican leaders goes much further. If Henry C. Payne, who has done more to unite and organize the republican party in Wisconsin than any other two men, is made unworthy of party preferment by reason of his owning street railway stock, is W. D. Hoard, who has spent the best part of six years in delivering Wisconsin to the democrats, any more worthy because the stock he holds pays dividends in cheese?

W. D. Hoard, S. A. Cook, H. C. Adams and nobody knows how many other patriots are anxious to get a job of some kind as guardian of the Wisconsin cheese interests. If the Wisconsin cheese-makers took care of their own interests as well as they have taken care of these gentlemen, every cheese factory in the state would be declaring twenty per cent semi-annual dividends.

Congressman S. A. Cook wants to be cabinet minister, and the cheese-makers of the state are backing him. If the Wisconsin cheese men turned out less cabinet lumber and filled cheese, and kept their attention more on full-creams and extra Herkimers, things would be better all around.

While it is altogether probable that the statement that President McKinley will not take up the question of appointments to offices until congress passes the tariff bill, is nothing more than a guess, the idea would not be bad at all. It would hurry congress, and that is what should be done.

E. D. Coe is a prominent candidate for pension commissioner to succeed J. H. Woodworth, of Milwaukee. Leaving his very effective work for republicanism and sound money out of the question Mr. Coe has business and executive qualities that fit him peculiarly for the position in question.

There isn't a state in the union that hasn't some good republican cabinet timber. Although that adds to Major McKinley's embarrassment, it is good for the country and for the party, because it makes it certain that able men will compose the cabinet.

The business men in Kansas and Nebraska are busy trying to reassure wholesale houses and other creditors as they were loud in denouncing the "creditor class" two months ago.

The water works investigation has cost the city enough without an election, but we may as well have an election and let the people express themselves about the whole thing.

Mr. Cleveland would better hire a few extra detectives to keep watch over him before all those wrathful silver democratic congressmen get to Washington.

Inasmuch as nobody seems ever to have favored the water works suit, or to have wanted to buy the works, why has all this money been spent in litigation?

The cabinet lumber away back on the shelf may be the best seasoned, but it is also more apt to be wormy.

Five Children Perished in Fire. Conway, Ark., Dec. 1.—The house of Sam Henderson, colored, who resides about three miles from town, was burned Monday morning at 1 o'clock. Five of his children, two of whom were grown, perished in the flames. The fire is supposed to have been of incendiary origin.

Carriage Factory Takes Fire. St. Louis, Mo., Dec. 1.—Zenas Varney's carriage factory was partially destroyed by fire Monday. The loss is estimated at \$100,000. The origin of fire is not known.

## A Good Prescription.

"Your wife would soon be well if she would go out into the air," said Dr. Pellet to Mr. Misery. "She stays at home too much."

"I can't get her to go out at all, doctor."

"I'll give you a prescription which will take her out," replied the astute physician, who then sat down and wrote the following:

"For outward application—  
"One new cape.  
"One tailor-made gown.  
"One new bonnet.  
"Pair of gloves to match.  
"Take every afternoon and evening."

—Pittsburgh Chronicle.

## Too Awful to Contemplate.

French Milliner—Oh, par bien! ze papers are telling ze exact cost of making a bicycle!

Assistant—But, why your alarm, madam?

Milliner (tragically)—Why! Why—why, suppose zey next tell ze actual cost of making a \$40-ponnet!—N. Y. Journal.

## Dyspeptic.

Aunt Esther—How are you getting on with your housekeeping, Charlie?

Charlie—O, well enough; only Ethel has given me mainly Biblical cooking, so far.

Aunt Esther—Biblical cooking? How so?

Charlie—Oh, I ask for bread and she gives me a stone.—Somerville Journal.

## Runs in the Family.

Wife—John, I wish you'd split some of that wood in the back yard.

Husband—Haven't time. Johnny will do it.

Wife (half an hour later)—Johnny, I want you to split some of that wood in the back yard.

Son—Where's pa?—Demorest's Magazine.

## Time's Changes.

"Can't I show you something in neckties, ma'am?" asked the salesman.

The new woman, who had been lingering near the showcase, slowly shook her head.

"No," she said. "I think I'll wait till the next time. I always let my husband select my neckties for me."—Chicago Tribune.

## A Football Crank.

"So your son is in college, eh? I suppose he intends to be a professional man."

"Yes, I guess so."  
"What particular line does he seem to favor?"

"Well, judging from the way he wears his hair I should think it must be music."—Cleveland Leader.

## Stood Him Off.

Dudley—I'm afraid, Cholly, me boy, that Miss Mittique does not look with favor upon me suit.

Cholly—What makes you think so, me deah boy?

Dudley—Every time I get to the point of asking her to be my wife she begins to knit.—Omaha World-Herald.

## Tit for Tat.

Miss Newman—I never made any such mistake about you, Mr. Chumley.—Tit-Bits.

## Then and Now.

Fame in the olden days brought one a crown:  
Laurel was twined on the proud victor's head:  
Now he is lampooned all over the town  
In newspaper cuts that would waken the dead.

—Pittsburgh News.

## The Lesser Evil.

"Ah," said the man, with bated breath, "Who lived with his third scolding wife, 'You talk about the jaws of death—' They're nothing to the jaws of life!"

—Tit-Bits.

## Egging Him On.

Dolly Swift—Mamma is almost sure she heard you kissing me last night.

Young Pokalong—But I have never given her any cause to think so.

Dolly Swift—Well, don't you think it is about time you did.—N. Y. World.

## No Ear for Music.

"Miss Yam isn't at all musical."  
"How do you know?"

"I offered to sing 'Oh, Promise Me' last night, and she said she'd promise anything if I wouldn't."—Philadelphia North American.

## Our Own Fault.

"There have been thieves in the city hall," he said, as he put down the paper.

"Oh, well, you have no right to complain," she answered. "You helped to elect them."—Chicago Post.

## Ennui.

"Oh, dear, how the hours drag! I wish I knew how to hurry them on."

"Why don't you apply the spur of the moment?"—Washington Times.

## Last Thing.

"And so they agreed to marry at last?"

"Yes; and it was the last thing they agreed on."—Detroit News.

## Not Cordial Enough.

The Hostess—I suppose there is no use in asking you to stay to dinner?

The Caller—Not in that way.—Tit-Bits.

## Decision Against Chapman.

Washington, Dec. 1.—The United States Supreme court has dismissed the writ of error in the case of Elverton R. Chapman, the New York broker, charged with violation of the statutes in refusing to answer questions put by the senate sugar trust investigation committee two years ago. This makes it necessary for Chapman to serve his sentence, at least technically. He will doubtless be promptly surrendered by his bondsmen and the case again carried to the Supreme court on habeas corpus proceedings to test the constitutionality of the act on which the prosecution is based.

## Texas National Bank Goes Up.

Washington, Dec. 1.—The failure of the First National Bank of Tyler, Tex., is reported. Bank-Examiner McDonald has been placed in charge.

## Stevens Point Flooded.

Stevens' Point, Wis., Dec. 1.—The water in the Wisconsin river at this point is the highest at present that it has ever been in the history of this city. A dyke was built a number of years ago for the protection of a large part of the residence portion of the city, but this is now in bad condition, and if the threatened flood comes hundreds of families will be compelled to seek shelter on higher ground.

## THE STUDIO GIRL.

AN INTERESTING LETTER FROM A YOUNG LADIES' COLLEGE.

Race Between the Sexes for Education. Health Impaired by Incessant Study.

The race between the sexes for education is to-day very close.

Ambitious girls work incessantly over their studies, and are often brought to a halt,

through having sacrificed the physical to the mental.

Then begin those ailments that must be removed at once, or they will produce constant suffering. Head-

ache, dizziness, faintness, slight vertigo,

pains in the back and loins, irregularity,

loss of sleep and appetite, nervousness and blues, with lack of confidence;

these are positive signs that women's arch enemy is at hand.

The following letter was received by Mrs. Pinkham in May, one month after the young lady had first written, giving symptoms, and asking advice. She was ill and in great distress of mind, feeling she would not hold out till graduation, and the doctor had advised her to go home.

—College, Mass.

You dear Woman:—

I should have written to you before, but you said wait a month. We are taught that the days of miracles are past. Pray what is my case? I have taken the Vegetable Compound faithfully, and obeyed you implicitly and, am free from all my ills. I was a very, very sick girl. Am keeping well up in my class, and hope to do you and myself credit at graduation. \* \* My gratitude cannot find expression in words. Yours sincere friend, MARY

P. S. Some of the other girls are now using the Compound. It benefits them all.

Lydia E. Pinkham's Vegetable Compound is the only safe, sure and effectual remedy in such cases, as it removes the cause, purifies and invigorates the system, and gives energy and vitality.

## ERRING WIFE WEEPS BEFORE THE POLICE

### RAILROAD MAN GETS A SHOCK LAST NIGHT.

When Officer Hogan Threatened to Break in the Door It Was Opened, And Another Railroad Man Rushed Into the Arms of Officer John Brown.

A Chatham street railroad man got a great shock early this morning, and another man got into jail.

The railroad man had suspected that all was not right at his home while he was away. At 3 o'clock this morning, he tapped on the window—giving the usual signal to indicate his return—but the door did not open unto him. A dark suspicion crossed his mind, and he came down town to get an officer. He found Officers Hogan and Brown, and they returned to the residence. Officer Brown stationed himself at the side door and Officer Hogan went to the front door. Officer Hogan demanded admission, but the woman refused to open it. When the officer threatened to break the door in, she took a second thought, however, and opened it. No sooner had it swung back, before another railroad man darted out of the side door—into the arms of Officer Brown.

Fears, explanations, and trouble followed.

The culprit was taken to jail and looked up. No charge has yet been made against him, but in all probability one will be.

Sneak thieves stole a pair of blankets from the backs of a team of horses owned by Simon Simonds, of the town of Janesville, last night.

Henry Huck, of Clinton, is in jail for five days.

DR. KING TAKES NO STOCK IN IT. Doesn't Think X Rays Can Make the Blind See.

Dr. Oscar A. King, the well known insanity expert, and head of the Oakwoods sanitarium, at Lake Geneva, does not believe that a blind boy was made to see by the use of the X ray.

He says: "Waiving the merits of the case, the report assumes a contradiction." "The boy sees nothing until he looks through the fluoroscope, when it is reported that he could distinguish different objects, but without the use of the X ray was as blind as ever. The human eye, as I understand it, is unable to detect the R tenger ray. If the boy saw it he could apparently see more than any one else can see. The objects it is said he could distinguish through the fluoroscope were nothing but shadowgraphs and probably the light he is thought to have seen was nothing but the ordinary fluorescence which accompanies the X ray. If the boy could see the fluorescence he could see white light but the report says he was blind to white light. The whole story is very improbable and impossible as stated. As to the report concerning Mr. Edison's experiments it is also incredible, and I doubt if Mr. Edison is responsible for it. It is possible that white rays can be seen in cases where blindness is due to some opacity in the eye ball preventing the light rays from passing through the retina. However, when the retina is degenerated, sight is impossible. Again, blind people, as every physician will admit, are very imaginative. Leading questions and the fact that an attempt is being made to test their eyes, would naturally stimulate their fancy.

## More Night Dresses.

For the fourth time, we place on sale, commencing to-day, Saturday, a lot of the popular teal down night dresses for ladies and gentlemen at the uniform price of 94 cents each. We have sold a great number of these night dresses, have calls for them right along, and thus far this season, have disposed of about 40 dozen. That means quite a few night dresses, and the only thing that has made for us this tremendous showing is the price, quality and make of the goods. If you think 94 cents too much to pay for the night robe, and wish to make the garment up yourself, come in and let us sell you the material. We will save you money. Bort, Bailey & Co.

## UNCLE PHIL'S STORY.

He Related It to the Boys For the Lesson It Taught.

"Tell us a story, Uncle Phil," said Rob and Archie, running to him.

"What about?" said Uncle Phil, as Rob climbed on his right knee and Archie on his left.

"Oh, about something that happened to you," said Rob.

"Something when you were a little boy," said Archie.

"Once when I was a little boy," said Uncle Phil, "I asked my mother to let Roy and myself go out and play by the river."

"Was Roy your brother?" asked Rob.

"No, but he was very fond of playing with me. My mother said yes, so we went and had a great deal of sport.

After awhile I took a shingle for a boat and sailed it along the bank. At last it began to get into deep water, where I couldn't reach it with a stick. Then I told Roy to go and bring it to me. He almost always did what I told him, but this time he did not. I began scolding him, and he ran toward home.

"Then I was angry. I picked up a stone and threw it at him as hard as I could."

"Oh, Uncle Phil!" cried Archie.

"Just then Roy turned his head and it struck him."

"Oh, Uncle Phil," cried Rob.

"Yes, he gave a little cry and lay down on the ground."

"But I was still angry with him. I did not go to him, but waded into the water for my boat."

"But it was deeper than I thought. Before I knew it I was in a strong current. I screamed as it carried me down the stream, but no men were at hand to help me."

"But as I went down under the deep waters something took hold of me and dragged me toward shore. It was Roy. He saved my life."

"Good fellow. Was he your cousin?" asked Rob.

"No," replied Uncle Phil.

"What did you say to him?" asked Archie.

"I put my arms around the dear fellow's neck and cried and asked him to forgive me."

"What did he say?" asked Rob.

"He said, 'Bow, wow, wow!'"

"Why, who was Roy anyway?" asked Archie in great astonishment.

"He was my dog," said Uncle Phil, "the best dog I ever saw. I have never been unkind to a dog or to any other animal since, and I hope you will never be."—St. Louis Post-Dispatch.

## AN ACTIVE CAREER.

Journalist, Lecturer and Prominent Woman Suffragist.

Mrs. Carrie Lane Chapman Catt, journalist and lecturer and national organizer of the National Woman's Suffrage association, was born in Ripon, Wis., in 1859. Her maiden name was Lane. While yet a child her parents moved to northern Iowa, where her youth was passed. In 1878 she entered as a student the department of the Iowa Agricultural college and was graduated therefrom in 1880 with the degree of B. S. She was an earnest student and attained first rank in her class. For three years she devoted herself to teaching, first as principal of the high school in Mason City, Ia., from which position she was soon promoted to that of city superintendent of schools in the same place. In 1885 she became the wife of Leo Chapman and entered into partnership with him as joint proprietor and editor of the Mason City Republican. Within a year Mr. Chapman died. Disposing of her paper, Mrs. Chapman went to California, where for a year she was engaged in journalistic work in San Francisco. In 1888 she entered the lecture field and for some time spoke only in lecture courses. The cause of woman's enfranchisement soon enlisted her warmest sympathies, and she accepted a position as state lecturer for the Iowa Woman Suffrage association. Since that time all her energies have been devoted to that cause, and there her earnest, logical eloquence has won her many friends. Three times she has been called as a speaker to the annual convention of the national association. In 1890 she became the wife of George W. Catt, civil engineer, of New York city. Her home is in Bensonhurst-by-the-Sea, on Long Island. M. E. C.

## GET WELL AND STAY WELL.

You will find at

GET RID OF WHAT MAKES YOU SICK AND STAY AID OF IT.

It is so simple to be well that we wonder why there are so many sick people.

Come to think about it, must be because they don't know what's made them sick.

If they knew that, they could prevent it, and when they were sick, in some cases cure themselves. But, so long as we don't take more care of our health, we shall always be more or less sick.

The simple rules of health are: Keep clear, take exercise, eat good food, scour out your stomach.

This last means: Don't tolerate indigestion. Cure it with Shaker Digestive Cordial. A stomach full of undigested, fermented, putrid food is the unhealthiest thing you can think of.

Half our diseases and troubles come from the poisons of undigested food. More than half of them could be cured with Shaker Digestive Cordial.

More than half, because often when we think we are sick we are only weak, and a course of nourishing food digested without effort by the stomach (with the aid of Shaker Digestive Cordial) would reinvigorate the whole system and make us well.

A ten cent trial bottle will prove it. At druggists.

IN buying a stove, therefore, look for one that will equip you for emergencies. The old way of building Base Burners gave four flue surfaces radiating heat. This plan is still used by many factories—the "improvements" each year being confined to nickel knobs and filagree work.

The FAVORITE is the only Base Burner in the market that makes full use of the descending flue principle and gives nine flue surfaces radiating heat. DOUBLE heating capacity. SAME quantity of fuel. The Favorite, with an oven, is a work of art as well as a perfectly operating Base Burner. The cooking holes are close to the fire pot and boil quickly.

## Another Handk'chief Opportunity

which we took advantage of in  
New York last week makes it  
possible for us to repeat the  
notable sale of two weeks ago.  
We have decided on

Monday,  
Nov. 30th  
to....  
Saturday,  
Dec. 5th

as the time—a fit opening for  
the holiday season. There will  
be a duplication of the 5 and  
10c values we offered two  
weeks ago; the same dainti-  
ness and excellence in 35c  
goods; and in addition there  
will be a line ranging in price  
from 50c to \$1 that will not be  
equaled in the city this year.

This last line will be especially suit-  
able for holiday gifts and is made up  
of hand embroidered handkerchiefs  
that usually sell at \$1.50. Early pur-  
chasers thus save a big margin.

10 cents—  
Ladies' Initial Handkerchiefs.

15 cents—  
Gentlemen's Initial Handkerchiefs.

25 cents—  
Fine embroidered Handkerchiefs  
with fancy borders—dainty as cob-  
web.

This sale begins Monday  
Nov. 30, and lasts until Satur-  
day night, Dec. 5.

It pays to trade at Hoffmaster's.
